RESTRICTION

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 14-20, drawn to a method for manufacturing a printed media.

Group II, claim(s) 35-46, drawn to a method for introducing a capability or modifying an existing predetermined capability of a series of media samples.

Group III, claim(s) 47-106, drawn to a method of configuring on demand a series of media.

Group IV, claim(s) 107-125, drawn to a method of manufacturing media laminated on a carrier.

4. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:
Group I has the special technical feature of attaching a value-added device to printed media, Group II has the special technical feature of introducing a capability or modifying an existing predetermined capability of a series of media samples, Group III has the special technical feature of associating a value-adding element to media, and Group IV has the special technical feature of applying a value-adding element to the back surface of media delaminated from a carrier. None of the groups share the same special technical feature and therefore lack unity because they lack a single general inventive concept.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

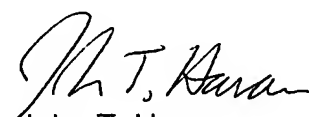

Art Unit: 1733

6.
